Prioritization Grid

[Get the latest version of this deck.](#)

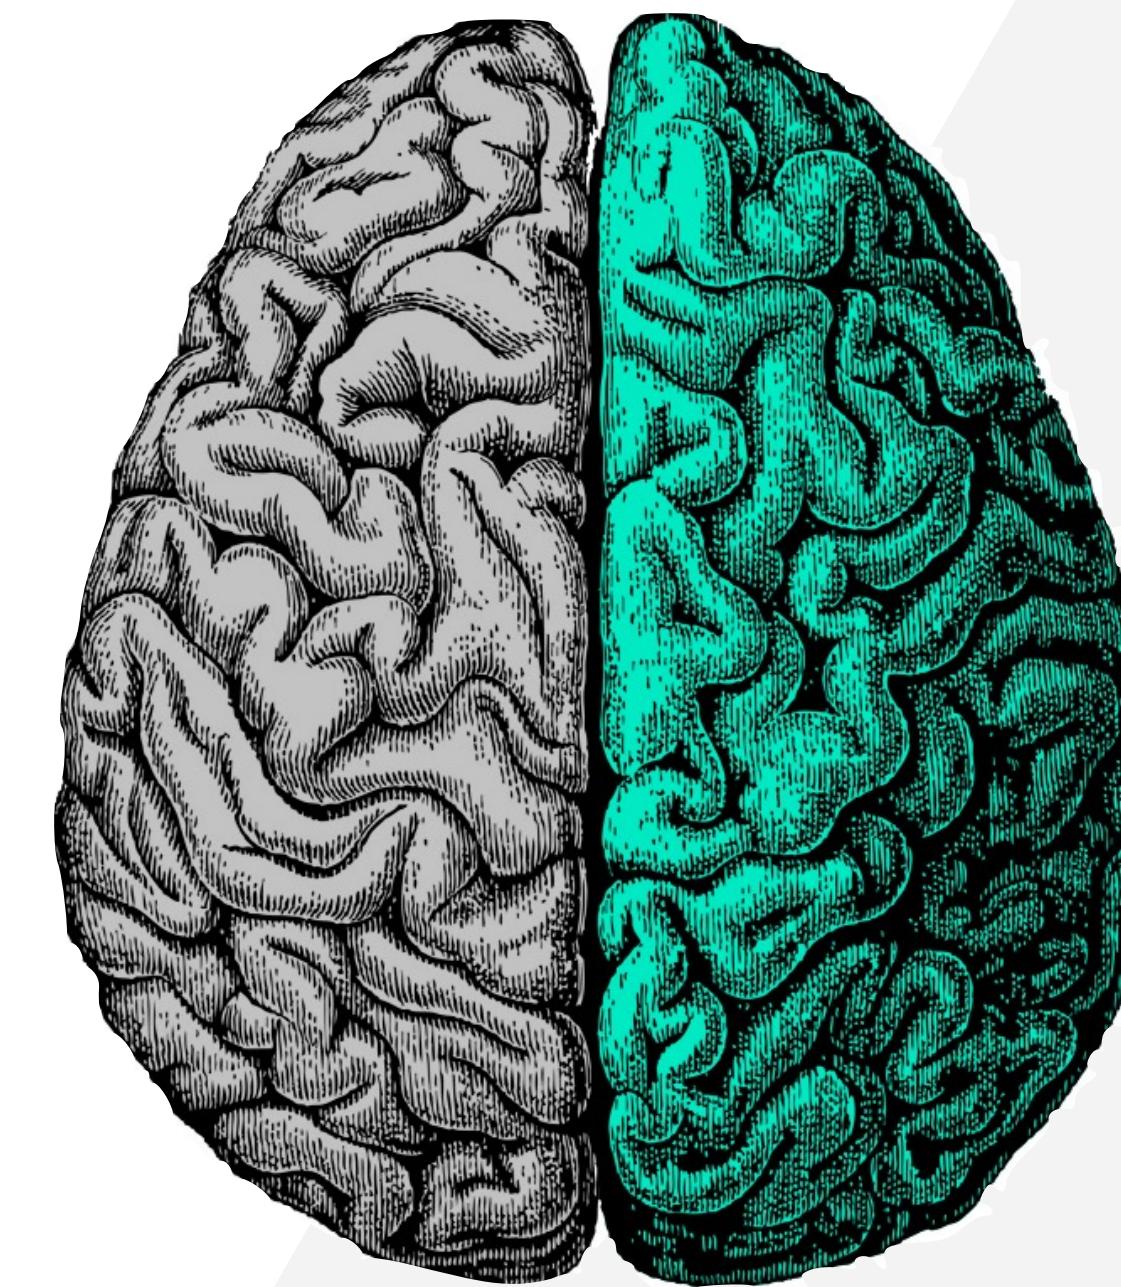

Why use this activity?

Reflect by evaluating possible ideas through the lenses of user value, feasibility, or business value to inform decision-making.

Most people evaluate too soon and too often, and therefore create less.

Create first, then use a Prioritization Grid to evaluate after that.

It's nearly impossible for our brains to **evaluate** and **create** at the same time.

INTRODUCTION

We suggest **30 minutes** for this activity.
How much time you spend is up to you!

- **Write before you talk.** Write or sketch lots of your ideas on sticky notes before talking about them. During discussions, capture the main points on sticky notes and post to the wall.
- **There are no bad ideas.** Start big. Diverge to get everyone's ideas out there. Come back together to discuss, cluster, and seek patterns. Then, converge to determine the strongest ideas.
- **Stay focused on your users.** Tell stories about users to keep them at the center of your attention.
- **Everyone participates.** Everyone has a marker and a pad of sticky notes.
- **Stay engaged.** Avoid side conversations. Use a “parking lot” to capture issues that are off-topic.
- **Start on time, stay on time.** To meet our goals, we need to watch the clock and stick to the plan.
- **Yes, and...** Instead of dismissing the ideas that your teammates suggest, push yourself to build on them.

Ready, set, go!

Prioritization Grid

30 min

BIG IDEAS

Prioritization is only as valuable as the ideas you bring to the table, so make sure you have a strong set of ideas to prioritize.

- **Example idea sources:** Big-Idea Vignettes activity or User Stories in your backlog

Prioritization Grid

30 min

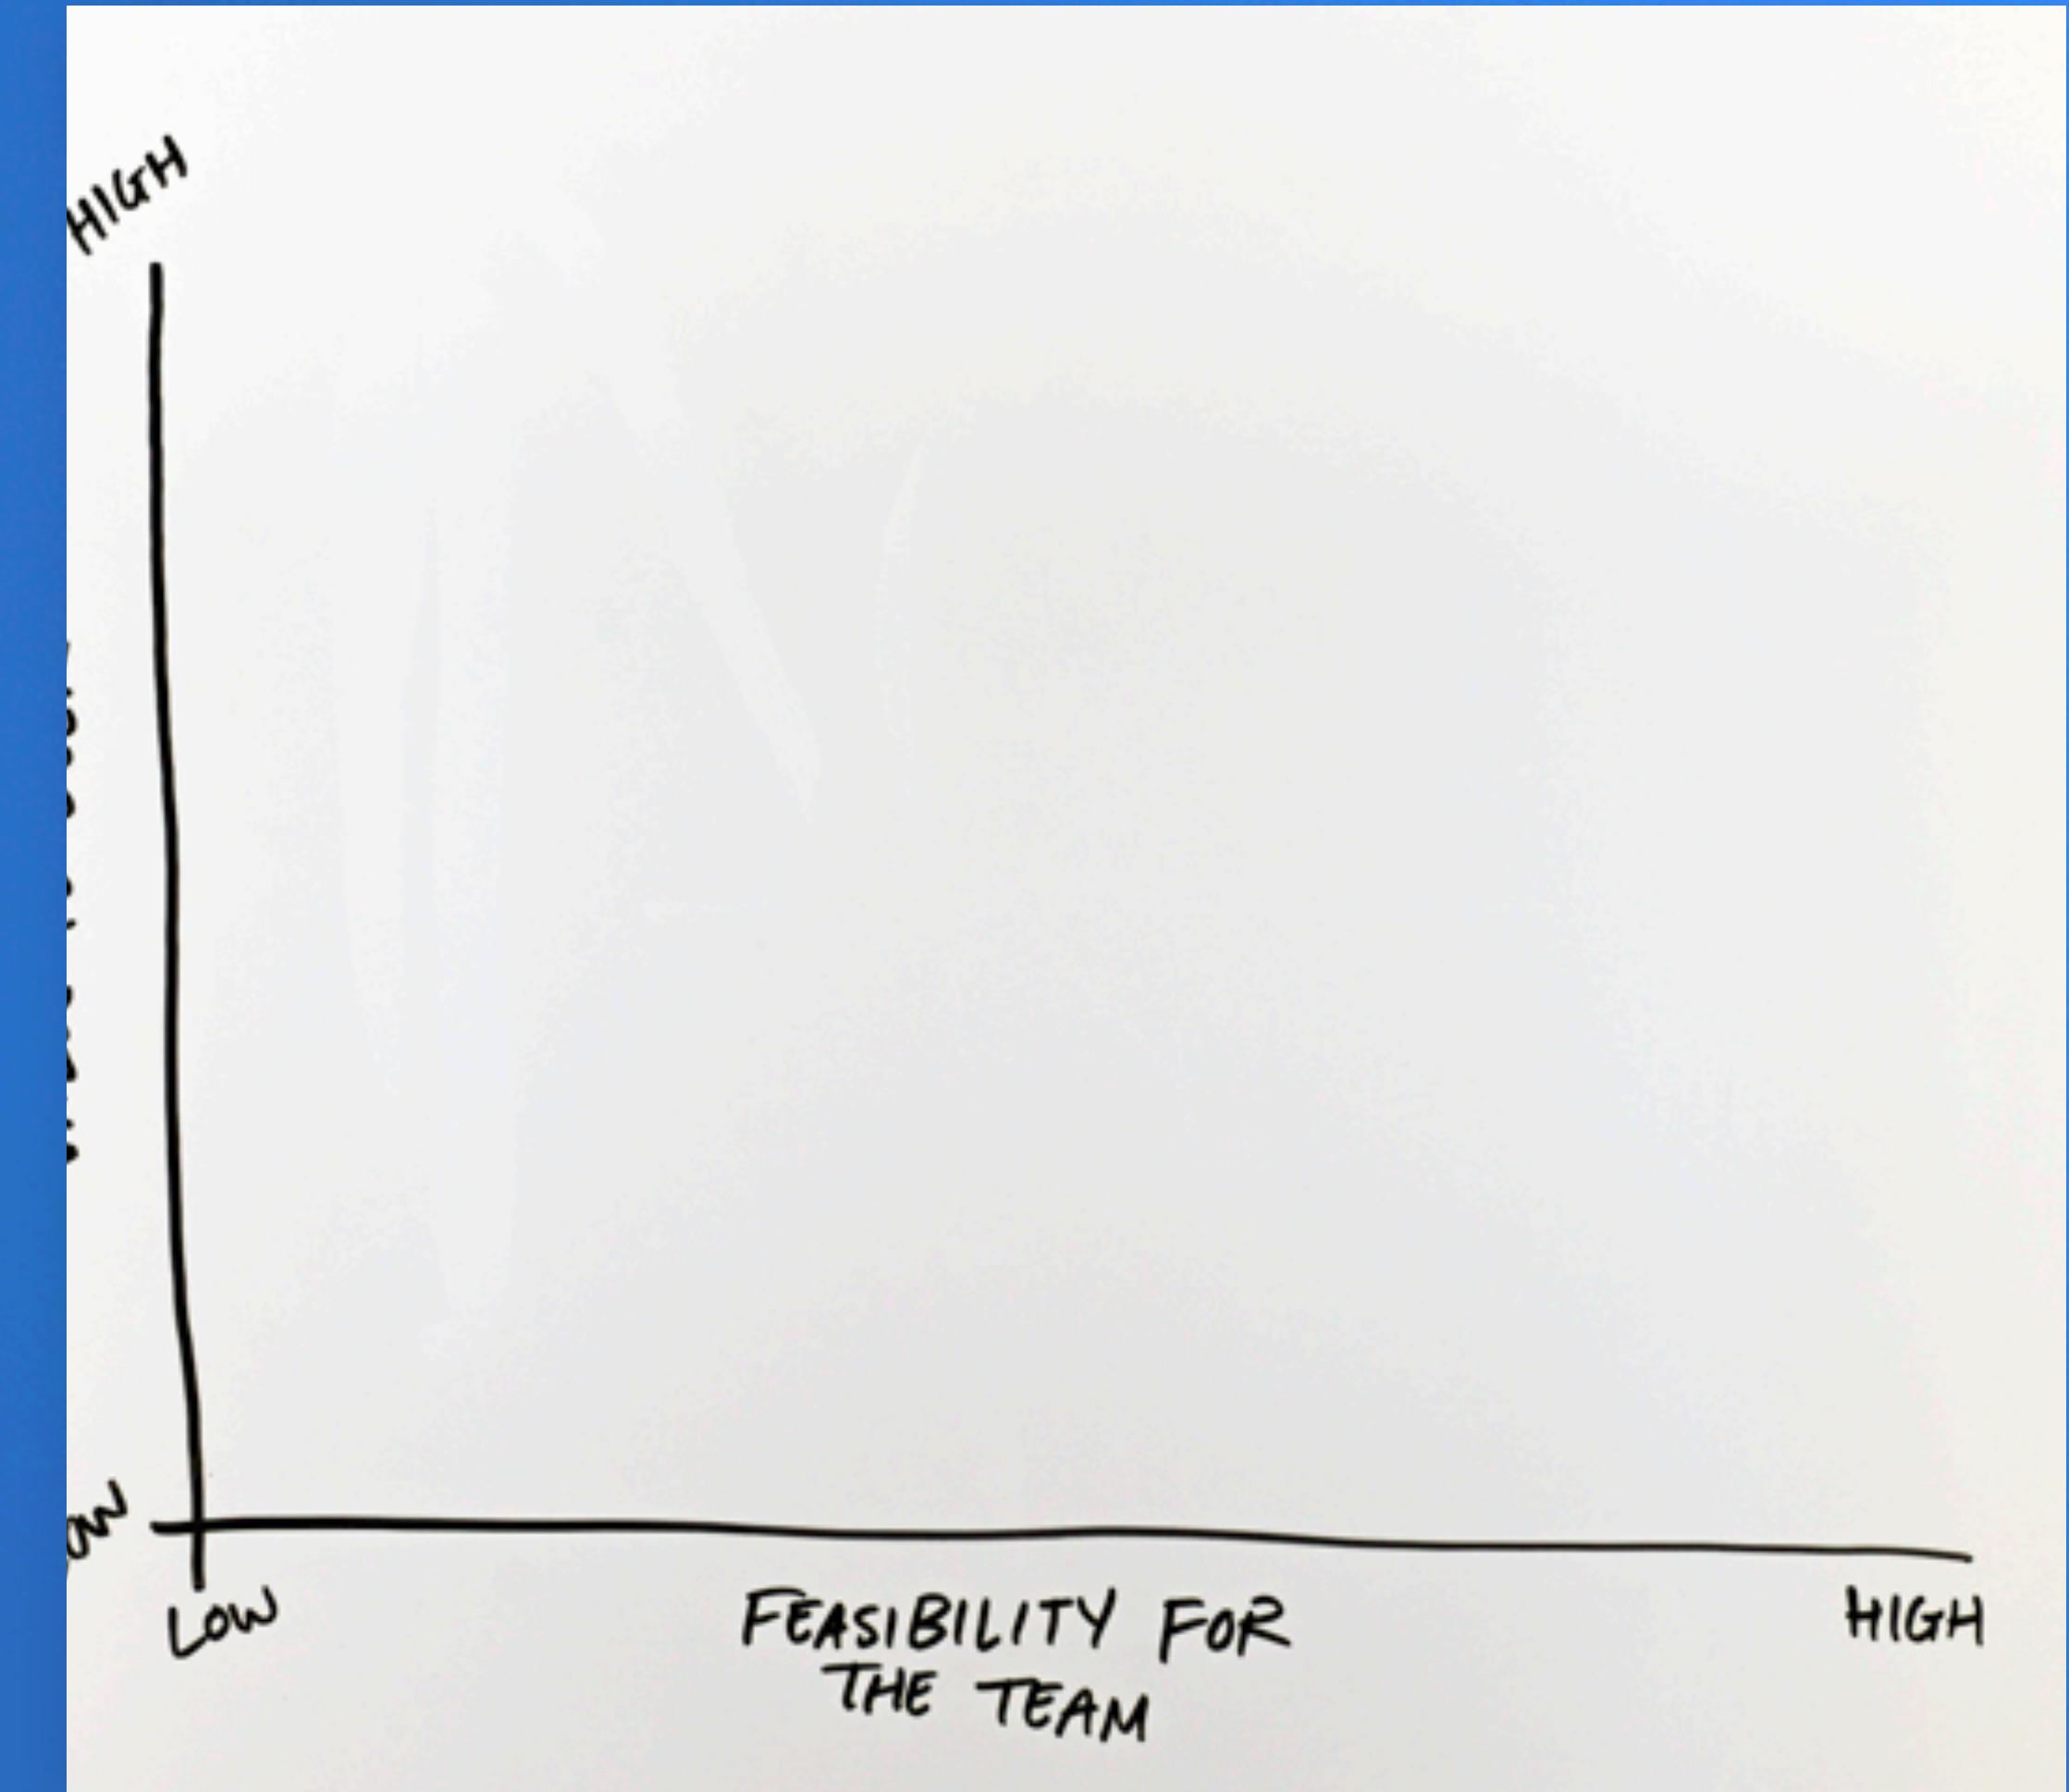

SET UP

Draw two axes:

Importance to the user
(low to high) and

Feasibility for the team
(difficult to easy).

- Alternatively you can prioritize against *Business value*.

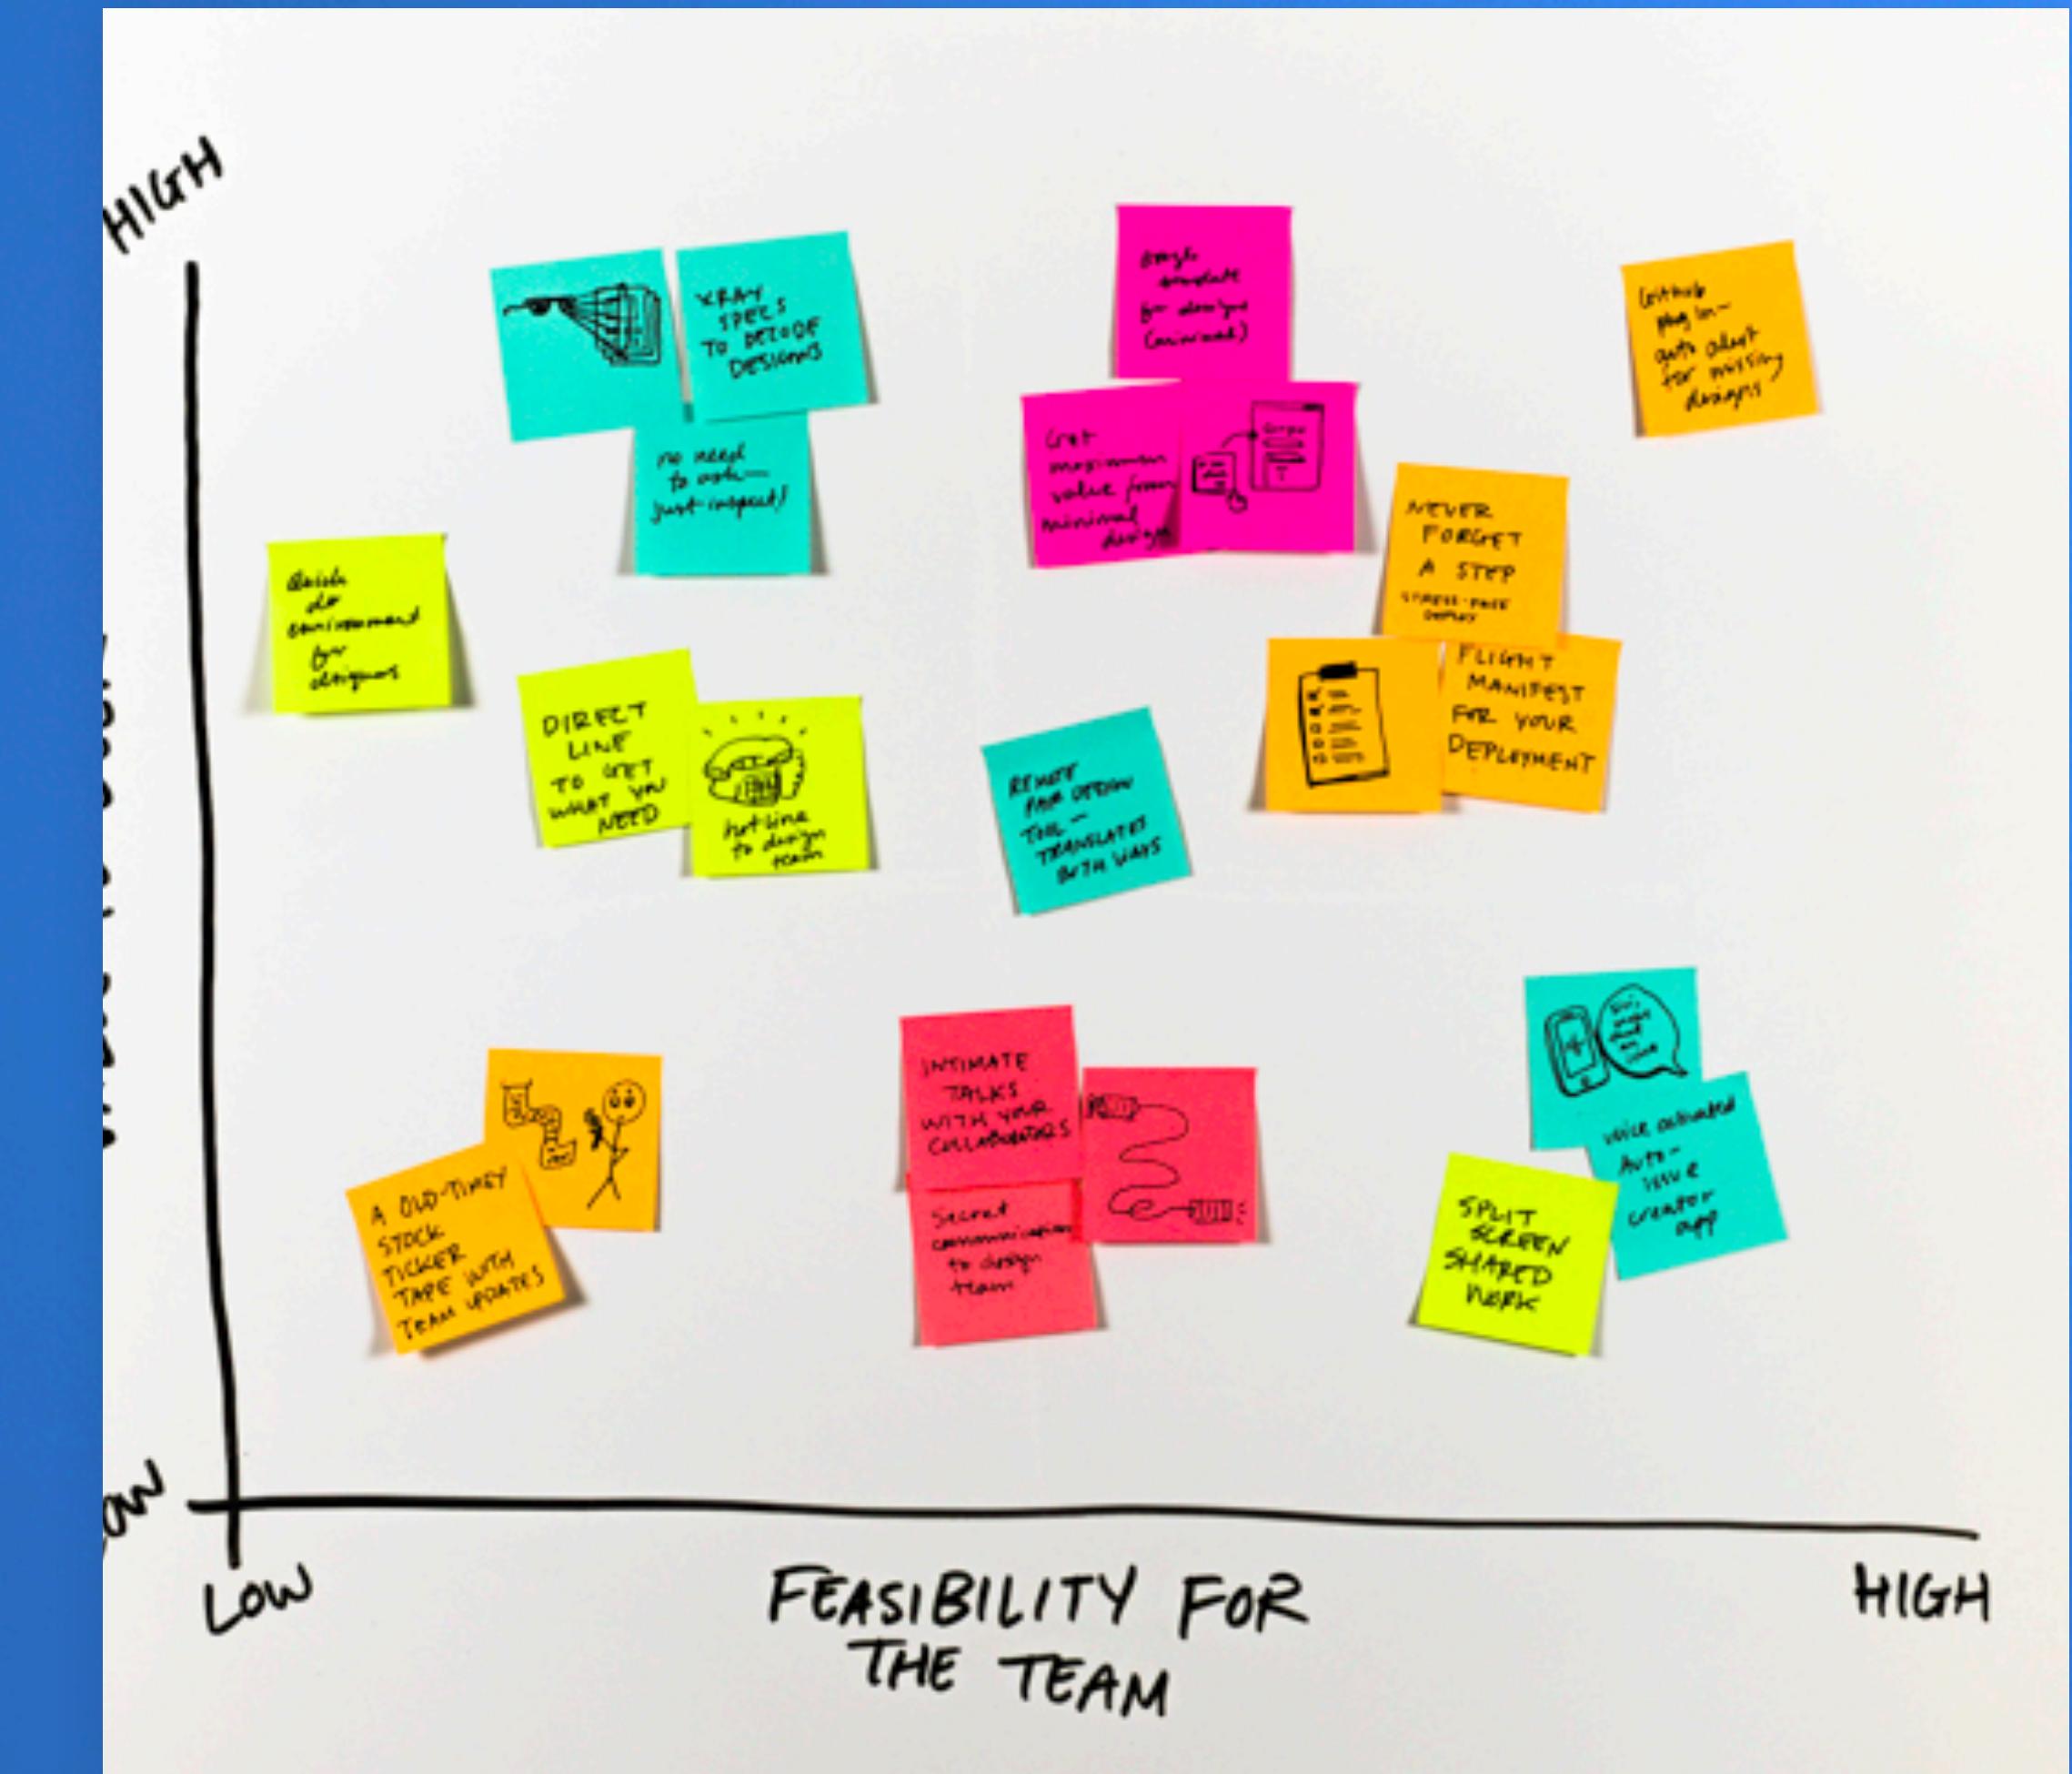

Prioritization Grid

30 min

EVALUATE IDEAS

Quickly evaluate ideas **individually** that aim to help your user reach their goal, and roughly plot them on the grid where they make sense.

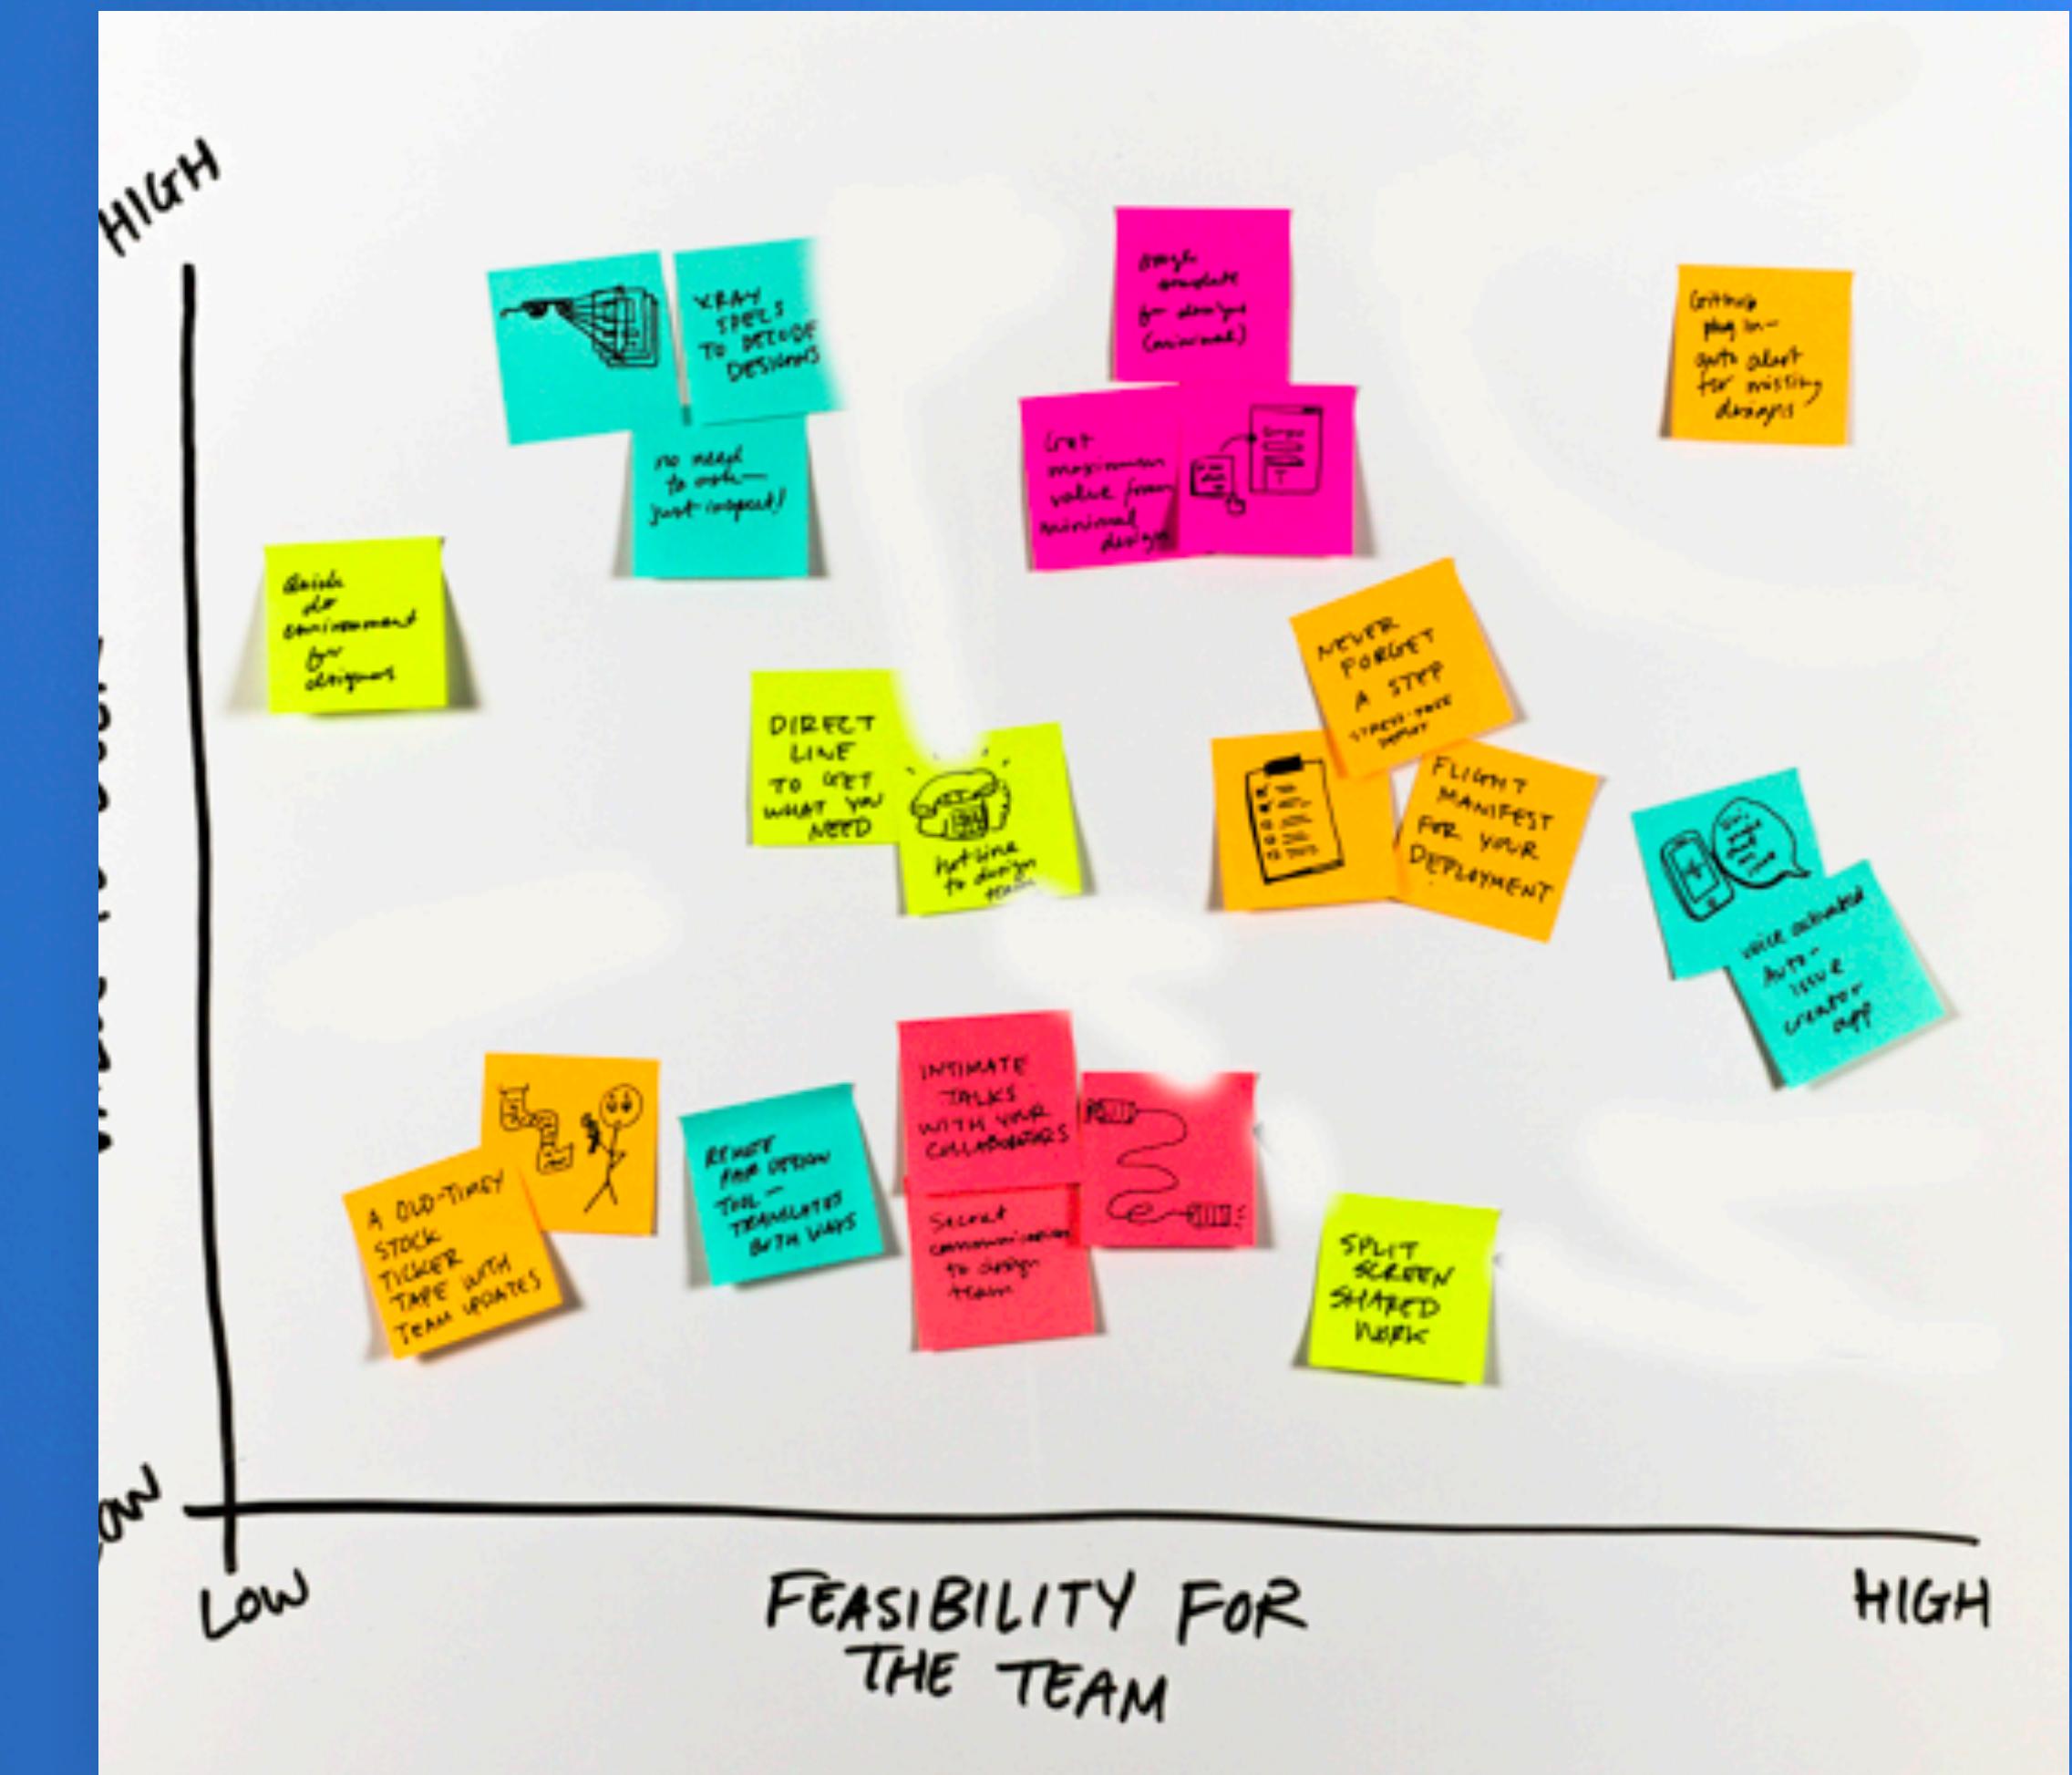

Prioritization Grid

30 min

EVALUATE IDEAS

Discuss with your teammates and reposition the sticky notes in relation to each other.

- When deciding on importance, focus on *value delivered to the user by the idea*.

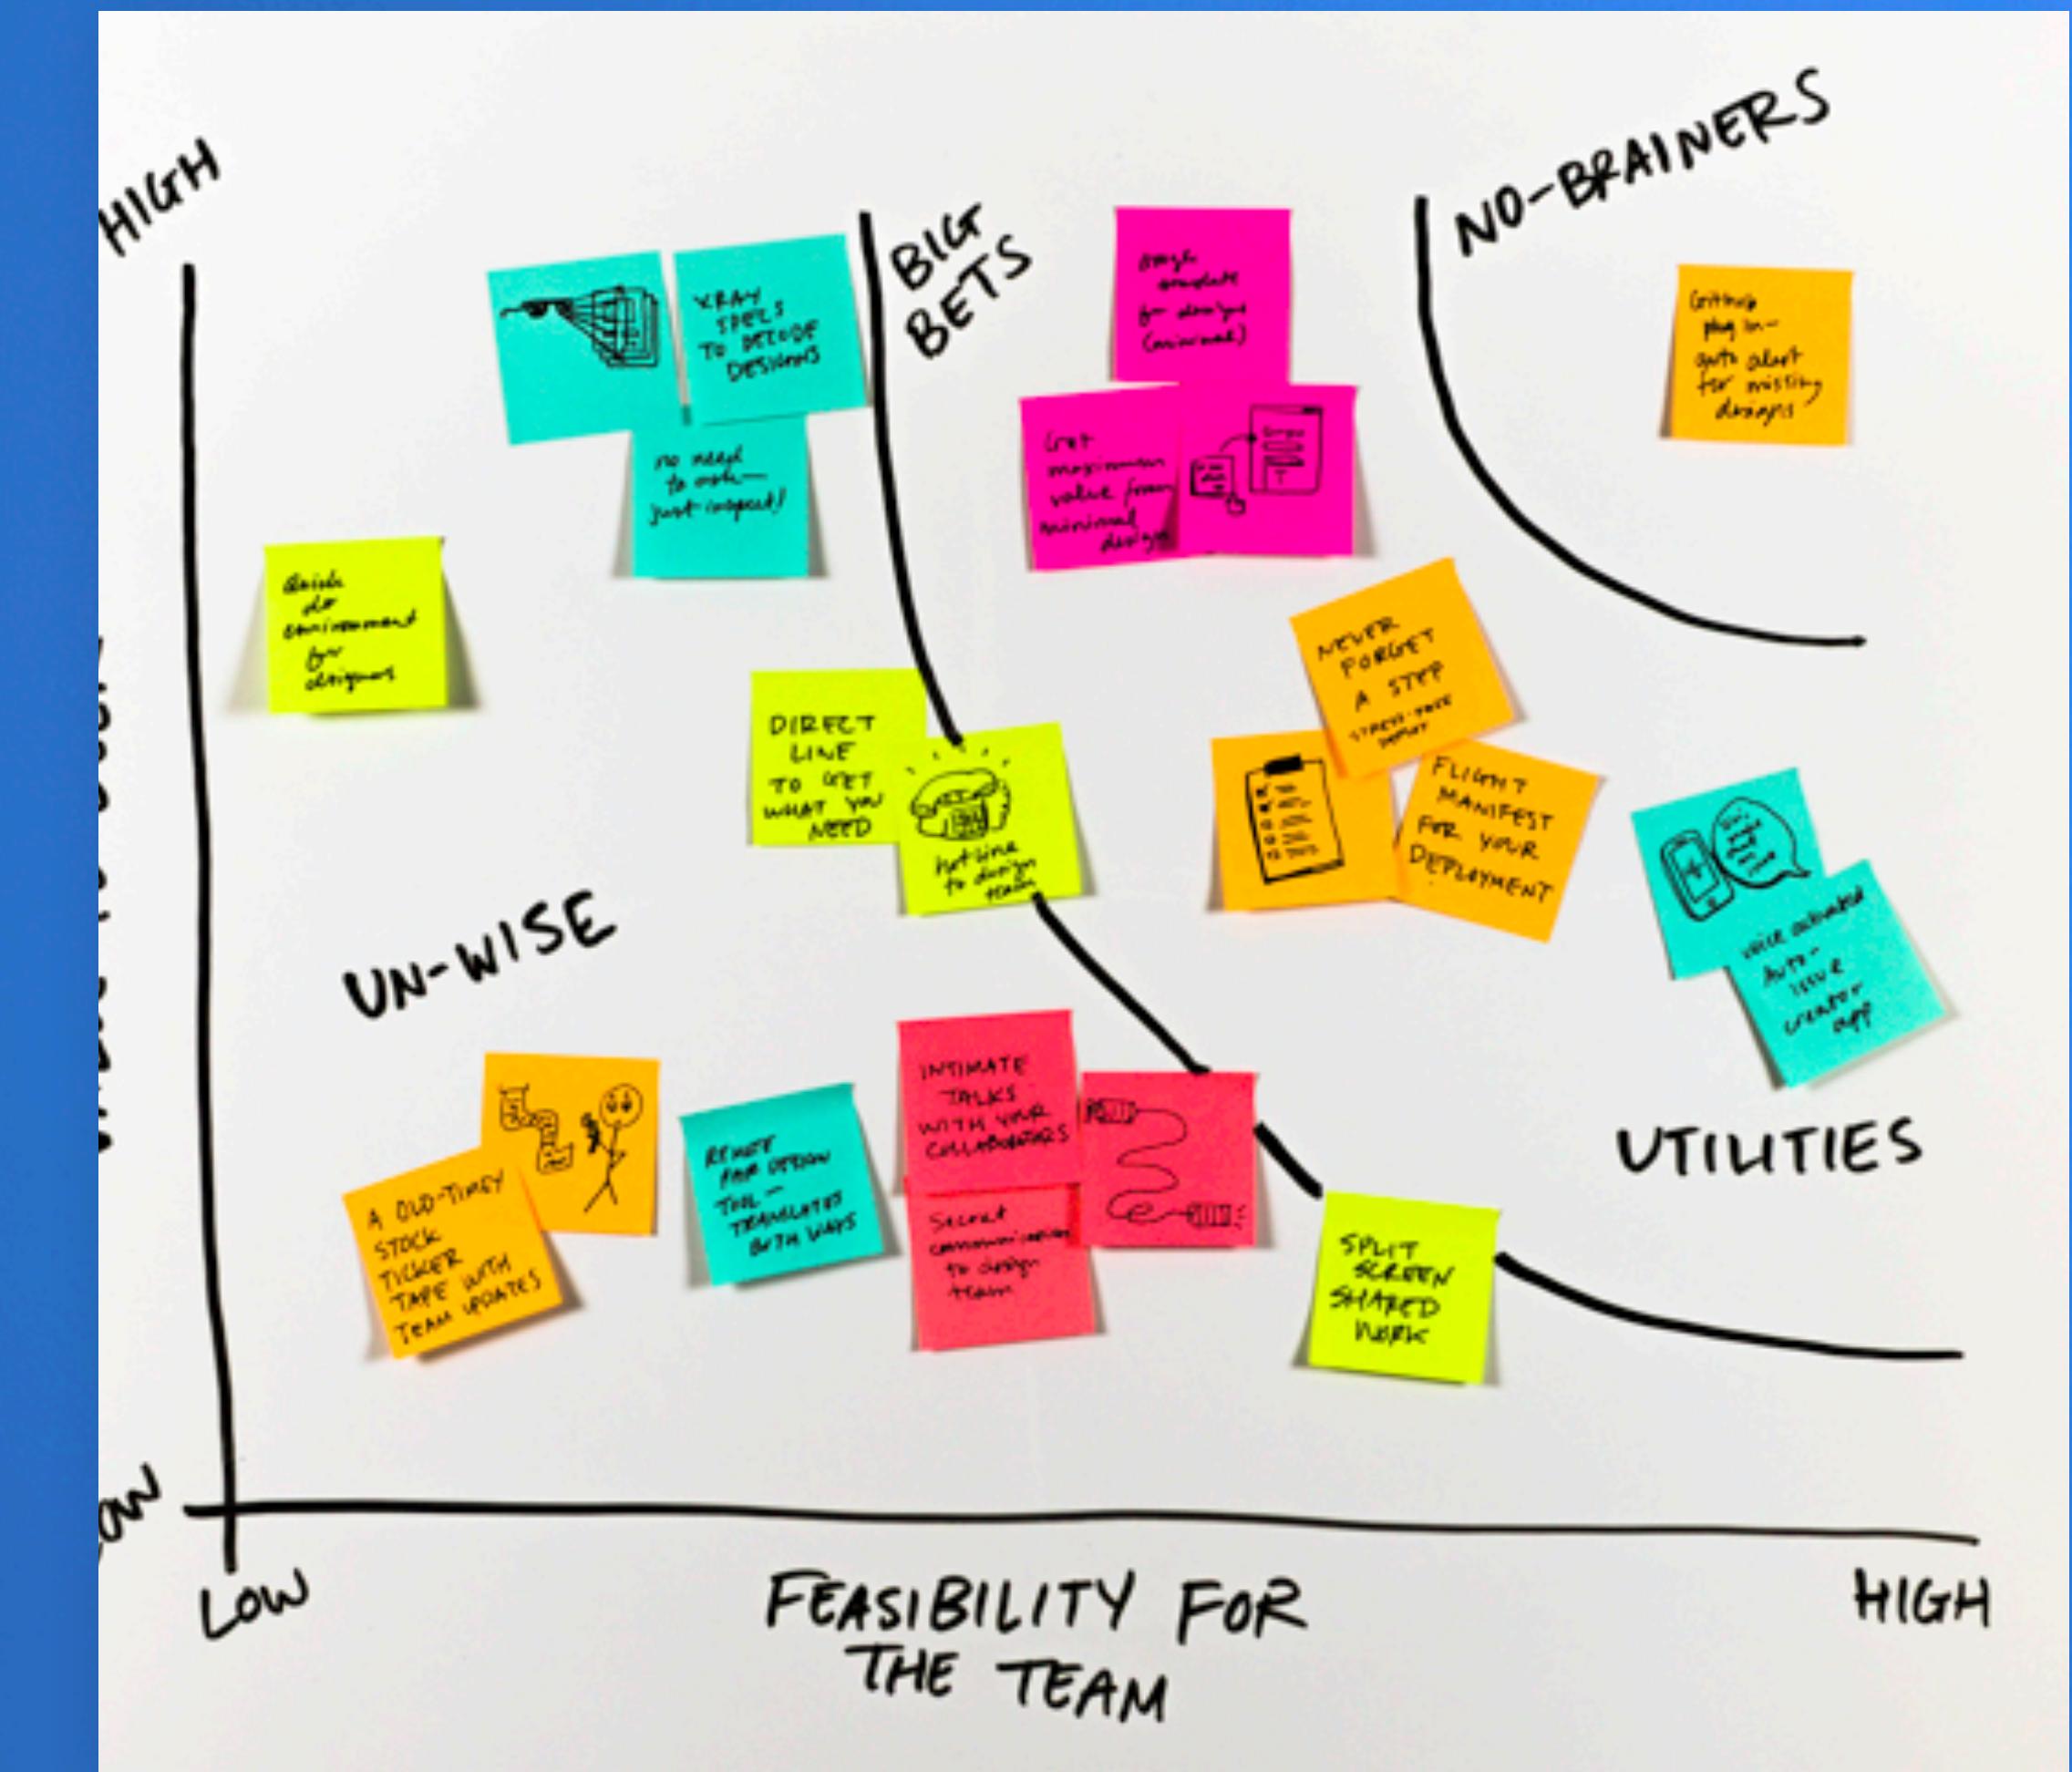

Prioritization Grid

30 min

FOCUS CONVERSATIONS

Draw rough sections across the map radiating out from the upper left.

Label them *No brainers*, *utilities*, *Big bets*, and *Unwise*.

Prioritization Grid

30 min

PLAYBACK

Focus the discussion around *Big bets*—mid-feasibility, high-importance ideas that reflect significant investments with potentially big payouts.
